

## Special Issue Digital Style Design

### Review

- Introduction to Digital Style Design Hideki AOYAMA ..... 1283

### Lecture

- History of Technology for Generating Free-form Surface Masatake HIGASHI ..... 1287
- Industrial Design and Aesthetic Space Curves Toshinobu HARADA ..... 1291
- Toward the Formulations of Aesthetic Curves and Surfaces  
Kenjiro T. MIURA and Norimasa YOSHIDA ..... 1295
- Support System for Acquisition of Shape Group in Design Development  
Yuji HAGIWARA ..... 1300
- Shape Deformation Techniques for Digital Style Design Kazuya G. KOBAYASHI ..... 1304

- My Experience in Precision Engineering  
Kouzo IIZUKA ..... 1312

- Gravure & Interview  
Shonan Design Co., Ltd. .... 1279  
Masato KIKUCHIHARA  
Interview : Yoshiyuki FURUKAWA

- Introduction to Precision Engineering  
Machined Surface Measurement Using Scattered and Diffracted Light ..... 1308  
Yasuhiro TAKAYA

- Introduction of Laboratories  
Gifu University Faculty of Engineering, Yamamoto and Kato Laboratory ..... 1313  
Lab. of Computer Systems for Manufacturing, Dept. of Precision Mechanics, Chuo University ..... 1315

- Awards
  - JSPE Prize
  - JSPE Technology Award ..... following pages
- JSPE News ..... 1318
- International Conference Report ..... 1317
- From the Lecture Committee ..... 告 12-1
- Editor's Note ..... 告 12-17

## Paper

- **Micro Self-Sharpening of Cutting Edges in cBN Grinding** ————— 1319  
Masakazu FUJIMOTO, Yoshio ICHIDA, Ryunosuke SATO and Yoshitaka MORIMOTO
- **Development of High Efficient Double Side Surface Polishing Machine Based on the New Concept (1st Report)** ——— 1325  
—Trial Manufacturing of Machine and Some Experiments—  
Heiji YASUI, Kanta YAMAGUCHI and Syoji KURIBAYASHI
- **Laser-induced Modification in Glasses by CW Laser Backside Irradiation (CW-LBI)** ————— 1330  
—Evaluation of Modified Glasses—  
Hideki TAKAYANAGI, Masato YOSHIOKA, Hirofumi HIDAI and Hitoshi TOKURA
- **Study on Water/Air Lubricated Hybrid Journal Bearings** ————— 1335  
—Static Characteristics for Offset Load—  
Shigeoka YOSHIMOTO, Kenichi OHKI, Hideyuki YATOH and Masaaki MIYATAKE
- **High Flatness Polishing of Rectangular Glass Materials (1st Report)** ————— 1340  
—Simulation of Rectangular Plane Generation by Linear Oscillation—  
Atsunobu UNE, Kenichiro YOSHITOMI and Masaaki MOCHIDA
- **Development of a Three Axis controlled Fast Tool Servo for Ultra Precision Machining (1st Report)** ————— 1345  
—Development of 3-axis FTS Unit and evaluation of its characteristics—  
Toshihiko WADA, Masayuki TAKAHASHI, Toshimichi MORIWAKI and Keiichi NAKAMOTO
- **Study on Aerostatic Lead Screw** ————— 1350  
—Discussion on the Calculation Method of the Fluctuation—  
Peng ZHAO and Tadaatsu SATOMI
- **Study on Metabolic System for Water-soluble Coolant (2nd Report)** ————— 1356  
—Effect of Multiple Recycling on Performance of Water-soluble Coolant—  
Yasuo KONDO, Kenji YAMAGUCHI and Satoshi SAKAMOTO
- **Study on Representation of Assembly Models for the Hand Loom Machine** ————— 1362  
Sho SANAMI, Yukihiko SHINDOU and Katsuhiko KITAJIMA
- **Real-time Control for Mobile Robot Considering Environmental Changes** ————— 1369  
Hiromi SATO, Yuichiro MORIKUNI and Kiyotaka KATO

## Data Sheet

- **Pressure Distributions and Bearing Characteristics of Hydrostatic Thrust Gas Bearings with Hybrid Restrictor** ————— 1375  
Ryutaro MIYAJI, Takashi HAYASHI and Hiroshi YAMAMOTO
