

Special Issue

Minimally Invasive Medical Technologies and Precision Engineering

Review

- Minimally Invasive Surgery and Precision Engineering Ichiro SAKUMA 1135

Lecture

- Development of Minimally Invasive Medical Devices Using Micro/nano Machining Technology
Yoichi HAGA, Tadao MATSUNAGA and Masayoshi ESASHI 1139
- Construction Methodology for the Medical Support System by Utilizing Ultrasound Technology
Norihiro KOIZUMI and Mamoru MITSUISHI 1143
- Optical Topography and Brain Science
Atsushi MAKI, Hiroki SATO and Akiko OBATA 1147
- The Actual Situation and Future of Capsule Endoscope Hideo ITO 1152
- Development of a Microneedle Using MEMS Technique
Seiji AOYAGI and Hayato IZUMI 1156

- My Experience in Precision Engineering
Masakazu MIYASHITA 1163

- Gravure & Interview
National Institute of Advanced Industrial Science and Technology, Surgical Assist Technology Group 1131
Kiyoyuki CHINZEI/Juli YAMASHITA
Interview : Kenji TAKAHASHI

- Introduction to Precision Engineering
The Impact of Slight Variation in Silicon Wafer Geometry 1160
Tetsuo FUKUDA

- Introduction of Laboratories
Watanabe Laboratory, Department of Systems Engineering, Nippon Institute of Technology 1164
Manufacturing Engineering Lab., Dept. of Mechanical Eng., Osaka Prefecture Univ. 1166

- JSPE Membership Guidance 1170
- International Conference Report 1168
- From the Lecture Committee 告 11-1
- Editor's Note 告 11-9

Paper

- Study on Friction Model of Linear Ball Guideway for Precision Positioning Control (3rd Report) ————— 1171
—Accuracy Improvement by Control Method Using Nonlinear Frictional Model—
Toshiharu TANAKA, Takaaki OIWA, Jiro OTSUKA and Ikuro MASUDA
- Study for Development of Nano-Machining and Measurement System of Machining Center Type ————— 1176
Kiyonori INAGAKI, Noboru MORITA, Kiwamu ASHIDA and Junji SAITO
- Crack Extension in Glass by Laser Irradiation along Laser Scribed Line ————— 1182
Koji YAMAMOTO, Noboru HASAKA, Hideki MORITA and Etsuji OHMURA
- Development of Polishingless Ultra-Smoothness Grinding Method (3rd Report) ————— 1188
—Influence of Normal Feed—
Heiji YASUI, Ryushiro SAKAMOTO, Yusuke TANAKA, Yuki YAMAMOTO and Takekazu SAWA
- On the Effectiveness of Contouring Control for Machine Tool Feed Drive Systems ————— 1193
Naoki UCHIYAMA and Kazuo YAMAZAKI
- Study on Hard-Pad-Based CMP of Dielectric Global Planarization ————— 1199
—Improvement of With-in-Wafer Non-Uniformity (WIWNU) in CMP Process—
Yohei YAMADA, Takahiro SUGAYA, Nobuhiro KONISHI, Shuhei KUROKAWA and Toshiro DOI
- Micro Drilling for Printed Circuit Boards ————— 1204
—Influence of Radial Run-out on Characteristics of Micro Drilling—
Hidehito WATANABE, Hideo TSUZAKA and Masami MASUDA
- Automatic Assessment of Putt Swing Skill Using Recurrent Neural Network— ————— 1210
Hiroyuki OGATA and Saeko YAMAMOTO
- Real-Time Changing-OPD Measurement Technique Applicable to a Scanning White-Light Interference Microscope — 1215
Masaaki ADACHI, Kenta FUJIMOTO and Yuuki HIRANO
- Development of a Deep-Hole Measuring System by Using Autocollimation Principle (3rd Report) ————— 1220
—Measurement of Roundness, Cylindricity and Straightness—
Hiroshi MURAKAMI, Akio KATSUKI, Hiromichi ONIKURA and Takao SAJIMA
- Study on Re-entrant Flowshop Scheduling Problem (2nd report) ————— 1225
Proposal of Heuristic Scheduling Method
Rei HINO, Daisuke UEKAWA, Masanori MORIKAWA, Norikazu SUZUKI and Eiji SHAMOTO
- A Fast Acoustics Generation System for the Interactive Design of Room Acoustics ————— 1231
Sho SANAMI, Eduardo SHIMIZU, Norimasa YOSHIDA and Katsuhiro KITAJIMA
- Image Noise Reduction Using Magnetic Shield Damping for Scanning Electron Microscope ————— 1238
Mitsuru HAMOCHI, Yuichiro TOKORO, Makoto AOSHIMA and Shinji WAKUI

Short Article

- Function of a Feedforward Compensator for Pneumatic Positioning ————— 1243
Shinji WAKUI, Masaomi YAMAMOTO, Masato TAKAHASHI
