

Special Issue

2008 JSPE Technology Award

Lecture

- **Development of SMART (Supersensitive MANufacturing systems for Reliable and Timely action) Factory**
Hiroyuki MORITA, Tomio KONDO, Yozo IWAI, Masayuki KITANO and
Yoshiharu KASAI682
- **Development of Limited Coolant Supplying Technology in Grinding (EcoLoG Grinding TYPE II)**
Takayuki YOSHIMI, Shigeo OISHI, Satoshi OKUBO, Hiroshi MORITA and
Tetsuro SHIBUKAWA686
- **Development and Application of Function Anisotropic Shape Memory Alloy**
Dai HOMMA690

Episode

- **Episode 1/Yozo IWAI**695
- **Episode 2/Takayuki YOSHIMI**697
- **Episode 3/Dai HOMMA**699
- **My Experience in Precision Engineering**
Hiroyuki YOSHIKAWA707
- **Gravure**
DENSO CORPORATION/JTEKT Corporation/TOKI CORPORATION679
- **Student Forum**
For a Clean Future : State-of-the-art Technology in Solar Cells and Wind Power702
- **Introduction of Laboratories**
Precision Machining Research Laboratory, Department of Mechanical Engineering, Graduate School, Kyushu University ·708
Manufacturing Engineering Laboratory, Department of Engineering, Shizuoka University711

- Information 780

- From the Lecture Committee告 6-1

Paper

- Study on Metabolic System for Water-soluble Coolant (3rd Report) ————— 713
—Evaluation of Metabolic System with Actual Spent Water-soluble Coolant—
Yasuo KONDO, Kazuya TAKADA, Kenji YAMAGUCHI, Fumio OBATA and Satoshi SAKAMOTO
- No Adverse Reaction/Simple/Easy/Practical Image Restoration Method of Blurred Image ————— 719
—Application to Photographed Image—
Fuminori TAKAHASHI and Hiroaki KOMATSU
- Proposal of a Modular Design Methodology for Product life Cycle Design ————— 725
Shinichi FUKUSHIGE, Keita TONOIKE, Yasushi UMEDA and Shinsuke KONDOH
- Study of a Non-Constraining System to Monitor Biological Information of Wheelchair Users ————— 731
Fusakazu YAMAZAKI
- Hierarchical Modeling Method for Manufacturing Simulation including Labor and AGV with Irregular Movement ————— 737
Shigetoshi NORITAKE and Ayako NOMURA
- Improvement of the Vibration Tolerance for Transmission Electron Microscope by Electron-Optical-Stiffness Design Method ————— 742
Mitsuru HAMOCHI, Hidetaka SAWADA and Shinji WAKUI
- Influence of Electrolyzed Water of Dilute NaCl on the Surface of Industrial Pure Iron ————— 747
Unkai SATO, Toshikazu TAKENOUCHI, Shin-ichi WAKABAYASHI and Mototaro SATO
- Development of Dressing-Fluid Circulation In-Process Dressing Method for Super Abrasive Wheel (1st Report) ————— 752
—Dressing Principle and Some Experimental Investigations—
Heiji YASUI, Yusuke TANAKA, Kiyoshi MATSUDA and Ryushiro SAKAMOTO
- Monitoring of Tool Wear of Single Crystal Diamond Tool in Ultra-Precision Cutting of Aluminum Alloy (1st Report) ——— 757
—Consideration of Effective Parameters in Indirect Method for Monitoring of Tool Wear—
Ryuichi IWAMOTO, Eiji KONDO, Suguya YOSHIDOME, Koichi ICHIKI and Norio KAWAGOISHI
- Laser Micro-Fabrication to Form Mirror-Dimple Structure ————— 762
Masaki WAKABAYASHI and Junichi IKENO
- Development of Polishingless Ultra-Smoothness Grinding Method (4th Report) ————— 768
—Influence of Parallel Step Feed—
Ryushiro SAKAMOTO, Heiji YASUI and Yusuke TANAKA
- 3D Data Acquisition and Reconstruction from SEM Stereo Pairs ————— 773
Hirotaka OJIMA, Yukihiro Murakami, Haruki OTSUKA, Yuya SASAMOTO, Libo ZHOU, Jun SHIMIZU and Hiroshi EDA

Short Article

- The Influences to the Control Precision of Anti-Vibration Apparatus's by Accelerometer Sensor Noise ————— 778
Ryo IRIE, Masato TAKAHASHI and Shinji WAKUI
